Election Requirement

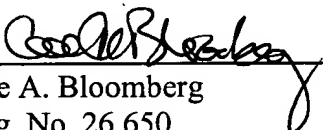

Applicant elects, with traverse, species II (drawn to Fig. 3). Claims, as amended (a Preliminary Amendment accompanies this Response), that read on the species shown in Fig. 3 are 1-45 and 47-55 (claim 46 is canceled in the accompanying Preliminary Amendment).

Evidence that the species I and I-VIII are not patentably distinct, such that the traverse to the election is proper, is that the claims (as amended) are supported by each of the figures of the application.

Respectfully submitted,

JONES DAY
